

# Goals dashboard

Our ESG plan lays out ambitious goals for the decade\* and beyond. We believe how we track our progress is critical. We organize our goals across four pillars: Advancing Sustainability, Cultivating Inclusion, Transforming Lives and Upholding Trust. Our pillars help us organize our ESG work and track progress against our goals.

Read about our progress in [By the Numbers](#). Learn more about the methodologies that we use to calculate progress toward each of our goals and key drivers in the [Appendix](#).

| Material topic           | Environmental Goal                                                                                                                       | Our status                                                                                                                                                                                            | SDGs <sup>1</sup> |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Advancing sustainability |                                                                                                                                          |                                                                                                                                                                                                       |                   |
| Climate action           | By 2050, we will achieve net zero greenhouse gas (GHG) emissions across scopes 1, 2 and 3                                                |                                                                                                                                                                                                       | 7, 12, 13         |
|                          | Key Driver: By 2030, we will reduce scopes 1 and 2 GHG emissions by 50%                                                                  | <div>FY24<div><div>40.6%</div><div>50%</div></div>Percentage reduction in GHG emissions</div>                                                                                                         | 7, 13             |
|                          | Key Driver: By 2030, we will source 75% of electricity from renewable sources across all Dell Technologies facilities — and 100% by 2040 | <div>FY24<div><div>61.5%</div><div>75%</div></div>Percentage of electricity generated from renewable sources</div>                                                                                    | 7, 13             |
|                          | Key Driver: By 2030, we will reduce absolute scope 3 GHG emissions from purchased goods and services by 45%                              | FY23: 18,238,800 MT CO <sub>2</sub> e.** We are in the process of restating our emissions for this category to make each year comparable and to provide a cumulative comparison to our FY20 baseline. | 12, 13            |
|                          | Key Driver: By 2030, we will reduce absolute scope 3 GHG emissions associated with the use of sold products by 30%                       | <div>FY24<div><div>22.2%</div><div>30%</div></div>Percentage reduction in GHG emissions</div>                                                                                                         | 12, 13            |
| Circular economy         | By 2030, more than half of our product content will be made from recycled, renewable or reduced carbon emissions material                | <div>FY24<div><div>14.1%</div><div>50%</div></div>Percentage of product content made from recycled, renewable or reduced carbon emissions material</div>                                              | 12                |
|                          | By 2030, 100% of our packaging will be made from recycled or renewable material, or will utilize reused packaging                        | <div>FY24<div><div>96.4%</div><div>100%</div></div>Percentage of recycled or renewable material content in packaging</div>                                                                            | 12                |
|                          | By 2030, for every metric ton of our products a customer buys, one metric ton will be reused or recycled                                 | <div>FY24<div><div>30.1%</div><div>100%</div></div>Percentage of products collected</div>                                                                                                             | 12, 13            |

\*The year presented within each goal statement refers to the calendar year that coincides with the majority of Dell's fiscal year. Our fiscal year is the 52- or 53-week period ending on the Friday nearest January 31. Our ESG activities, including goal progress, are primarily collected and reported by fiscal year, unless otherwise noted. The expected end date of each goal is the end of the associated fiscal year (e.g., "By 2030" refers to the end of Dell's Fiscal Year 2031).

\*\*Due to the one-year lag in supplier emissions data, progress against the current year is not available.

# Goals dashboard

Our ESG plan lays out ambitious goals for the decade\* and beyond. We believe how we track our progress is critical. We organize our goals across four pillars: Advancing Sustainability, Cultivating Inclusion, Transforming Lives and Upholding Trust. Our pillars help us organize our ESG work and track progress against our goals.

Read about our progress in [By the Numbers](#). Learn more about the methodologies that we use to calculate progress toward each of our goals and key drivers in the [Appendix](#).

| Material topic  | Governance Goal                                                                                                                                                                                                | Our status                                                                                                                                                                                                                                                                                  | SDGs |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Upholding trust |                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                             |      |
| Trust           | By 2030, our customers and partners will rate Dell Technologies as their most trusted technology partner                                                                                                       | We announced this goal in FY23 and worked in FY24 to identify best practices for measuring trust among customers and partners. We aim to make progress against our key drivers for Trust and will continue to evolve how to best measure and communicate progress against this goal.        | 9    |
|                 | Key Driver: By 2024, Dell will make available the first validated Zero Trust solution, accredited by the U.S. government and commercially available to targeted global public and private sector organizations | Dell's Zero Trust solution, Project Fort Zero, is awaiting a testing date for validation from the U.S. Government. We anticipate publishing a general availability date shortly following the successful completion of the U.S. Government validation test.                                 | 16   |
|                 | Key Driver: By 2025, 100% of actively sold Dell-designed and branded products and offerings will publish a software bill of materials (SBOM), providing transparency on third-party and open-source components | We are working to determine the full scope of actively sold Dell-designed and branded products and offerings and to establish our metric pipeline. At the close of FY24, we had generated SBOMs for 70 Dell-designed and branded products and are on track to meet this key driver by 2025. | 9    |
|                 | Key Driver: By 2030, all new Dell products and offerings that use authentication will offer a password-less authentication mechanism                                                                           | We are working to ensure our product architectures enable passwordless authentication, including certificate-based management, and incorporation of hardware-bound authentication methods are being established and adopted into roadmaps.                                                  | 9    |
|                 | Key Driver: Each year through 2030, we will make it easier and faster for customers to exercise choice and control over their personal data                                                                    | In FY24, Dell made customer choice and control over personal data easier and faster through the expansion of our <a href="#">enhanced Privacy Center</a> , which is now available in 74 locations globally.                                                                                 | 16   |

\*The year presented within each goal statement refers to the calendar year that coincides with the majority of Dell's fiscal year. Our fiscal year is the 52- or 53-week period ending on the Friday nearest January 31. Our ESG activities, including goal progress, are primarily collected and reported by fiscal year, unless otherwise noted. The expected end date of each goal is the end of the associated fiscal year (e.g., "By 2030" refers to the end of Dell's Fiscal Year 2031).
